Math 20B

University of California, San Diego Department of Mathematics

Instructions

- 1. Write your Name, PID, Section, and Exam Version on the front of your Blue Book.
- 2. No calculators or other electronic devices are allowed during this exam.
- 3. You may use one page of notes, but no books or other assistance during this exam.
- 4. Read each question carefully, and answer each question completely.
- 5. Write your solutions clearly in your Blue Book.
 - (a) Carefully indicate the number and letter of each question and question part.
 - (b) Present your answers in the same order they appear in the exam.
 - (c) Start each problem on a new page.
- 6. Show all of your work. No credit will be given for unsupported answers, even if correct.
- 7. Turn in your exam paper with your Blue Book.
- 0. (1 point) Carefully read and complete the instructions at the top of this exam sheet and any additional instructions written on the chalkboard during the exam.
- 1. (8 points) Find the area between the curves $y = x^2$ and $y = 4x x^2$ over the interval from x = 0 to x = 4. (That is, find the area of the shaded region below.)

- 2. (8 points) Compute the definite integral: $\int_{1}^{e^2} \frac{(\ln x)^4}{x} dx$.
- 3. (8 points) Set up, but do not solve, an integral that will give the volume of the solid of revolution obtained by rotating the triangle about the *y*-axis. (Do not compute the integral.)
