Please keep your comments constructive and professional, abiding by the Principles of Community

- Basically the reason why I am not entirely lost during lecture.

- Daniel was always there for his students when they needed help. Whenever I had a question, he would always explain everything in such a clear manner. His teaching process was excellent and I could honestly say he is one of the best teacher's I have had for Math. No matter how complex the question would be, he managed to make it seem so easy. Overall, an excellent TA with a very positive and welcoming personality.

- He explains the course material well and goes over a lot of examples.

- He is a good instructor and does his job well.

- I wish that we could have been helped on our WebAssign homework too not only the paper-pen homework. Also, the midterms I feel, could have been graded easier or curved as the average was really low.

- Please write more clearly. Particularly, the 9's look like g's

- Very clear instruction, and helpful reviews of course material for exams
