9. Do you have any other comments to add to your evaluation?

Please keep your comments constructive and professional, abiding by the Principles of Community

- Daniel is a great guy. He explained the material well.
- Good.
- He did explain things but definitely went about it in a round-a-bout way which sometimes made it confusing to understand. I feel like he helped in a general way but it was kind of hard to understand the process when he would jump to different things.
- He's good at math, and he's good at explaining math. Daniel is a good TA.
- I think he should ask more questions and give students more chance to think about the question.
- Very nice person! Very helpful!
