1. Consider the formulas

- | | |
|--------------------------|--|
| a. p_3 | e. $(p_1 \wedge \neg p_2) \vee \neg(p_1 \wedge p_2)$ |
| b. $\neg p_3$ | f. $p_1 \rightarrow p_2$ |
| c. $p_7 \wedge \neg p_3$ | g. $(p_1 \wedge p_2) \vee (\neg p_1 \wedge p_2)$ |
| d. $p_7 \vee \neg p_3$ | h. $(p_1 \vee \neg p_2) \wedge (\neg p_1 \vee p_2)$ |

• Which of the formulas a. - h. are DNF formulas?

• Which of the formulas a. - h. are CNF formulas?

2. Find a DNF formula that is tautologically equivalent to $p \vee q \rightarrow \neg r \wedge \neg s$.

(Do the conversion to DNF straightforwardly: do not write out a 16 line truth table!)

3. Consider the Boolean function f defined by the table to the left. Give a DNF formula that defines f .

x_1	x_2	x_3	$f(x_1, x_2, x_3)$
