9. Do you have any other comments to add to your evaluation?
Please keep your comments constructive and professional, abiding by the Principles of Community

- Great TA, he should most definitely be allowed to TA for MATH 103B again

- hes really helpful, always accessible, and has a good way of teaching that translates to me. thank you for all your help!

- His style is too abstract, I feel like i got more confused then going to lecture, which forced me to self-study and made my grade worse

- Shubham is really great. He clearly cares about the students and encourages them to come to office hours and accommodates everyone. He never made anyone feel inadequate for not knowing answers and he tailored discussion to the questions posed by students. I give him my highest recommendation.
