- I really enjoyed class with you and it was really a bummer that we couldn't have class for the full semester. You have been one of the best teachers I've ever had and you always kept class interesting. Even for an 8am, I looked forward to going to class every day and there was no point in the course where I was lost. Thanks for everything that you did this year and I'm sorry we couldn't have a full semester.
- I would love to have you as a teacher again.
- Scott is defiantly one of the best math instructors. But whoever came up with the idea that the pre-requisite test is 5% of the total grade is babbdd.very baaad.
- Excellent instructor. Scotty's enthusiasm and humor always made class fun, even for those who weren't thrilled about an 8 am calculus class.
- He alway find a way to help us and he is very nice.
- Scotty is the best math instructor I have ever had. His teaching style and math knowledge made calculus my favorite class and I enjoyed going every time despite it being at 8am. It was a really good time and I always felt enriched after attending one of his classes. Also the instructors we had during Scottys absence were also good teachers; Mark and Brendan I believe?
- Scotty, thanks for always putting forth the effort and showing up to class motivated and ready to teach. That was refreshing for an 8:00am course. My only suggestion for you as an instructor is to increase the amount of examples shown per section and maybe decrease the more theoretical side of things. Overall, it was a pleasure being in your class and I wish you the best of luck. Thanks
